

Sod Grass Pallet Pack

DIEHARD™ Sod Grass Pallet Pak is formulated to be used as a soil amendment treatment for establishing turf root systems with live beneficial mycorrhizal fungi. A mycorrhizal root system is one that will uptake more water and nutrients than a non-mycorrhizal system. DIEHARD™ Turf Pallet Pak contains humic acids, beneficial bacteria, soluble sea kelp, yucca plant extracts, and Horta-Sorb® to reduce water maintenance and promote rapid root development.
