

APPLY TO ROOT ZONE & FOLIAGE TO REVITALIZE TREES, SHRUBS & ALL LANDSCAPE PLANTS

WHAT IS BIORUSH ORGANIC?

BioRush is a dry, soluble bio-stimulant compound applied as a foliar, drench or root injection to turf, trees, shrubs, fruit, nut, and vineyards to boost plant and soil health.

BioRush Organic is used as a maintenance product and for green up. It is a dry, water-soluble root growth stimulant with nitrogen fixing, phosphorus solubilizing and growth promoting beneficial bacteria.

Product Features: Soluble product used as a foliar spray to solubilize minerals in the ground, build organic content of soils and boost the health of plants and soil.

Application rate: 1 lb. per 100 gallons of water or 1 tbs per gallon and use as a foliar spray, topical soil drench or soil injection. Note rates below per application.

WHAT IT CONTAINS!

- Bacillus, Pseudomonas & Streptomyces Species
- Humic Acid

ORGANIC

- Soluble Sea Kelp
- Trichoderma Fungi
- Yucca Extract

WHAT IT DOES!

- **Improves:** Plant respiration, photosynthesis; promotes cell division and lateral bud development as well as delay the aging process.
- **Reduces:** Plant Loss, Fertilizer Use, Need of Pesticides, Heat Stress Damage, Irrigation Frequency, Losses from Drought Conditions.
- Features: "Jump-starts" Mother Nature.

BIORUSH® ORGANIC

BioRush® Organic is a soluble powder that is applied around the base of trees and landscape plants as a root drench and also can be applied as a foliar spray.

BioRush® Organic contains biological ingredients. Increasing the microbial activity in the soil around the root mass increases plant development, and the root system.

GUARANTEED ANALYSIS

Soluble Potash (K ₂ O)	3%

Derived from: Kelp Extract (ascophyllum nodosum)(microbe food)

HEALTH & SAFETY

Inhalation: If dusty conditions exist wear a dust mask.

Ingestion: Drink large amounts of water, induce vomiting and seek medical attention.

Eyes: Flush with large amounts of water. **Safety:** Product becomes slippery when wet.
