HORTA-SORB[®] SM

Water Absorbing Gels Small Sized Gel Granules

Long Lasting, Economical Water Management Solution for Landscaping soils during transplanting, Mixing in potted soil mediums, Hydro mulching, or as Root Dip

APPLICATION

Transplanting: Sprinkle 1/2-3 cups of gels into back fill soil close to root system. (depending on size of plant).

Bare root treatment: Dipping Roots - Mix Horta-Sorb[®] at the rate of 1 lb. per 30 to 35 gallons of water to form a root dip* the consistency of a heavy gravy. Adjust application rate to achieve this consistency.

Hydroseeding/Hydromulching

Add Horta-Sorb[®] at the rate of 10 – 50 lbs. per acre depending on severity of conditions and budget considerations. Add Horta-Sorb[®] to the tank before adding fertilizer, mulch and seed.
